

# "Light It Up Blue"

Help shine a light on autism spectrum disorders during April, Autism Awareness Month, as we build excitement for the 2019 Funky Fun Run events. Join the Autism Society of Alabama as we participate in Autism Speaks' "Light It Up Blue Campaign" supported by millions nationwide.

Iconic buildings ranging from the Empire State Building to our very own RSA Battle House Tower in Mobile, Alabama have all turned their lights blue in honor of Autism Awareness Month. Blue is the universal color for autism awareness, and it is essential to increase awareness in communities throughout Alabama.

Estimated 70,000 Alabamians are currently affected by autism spectrum disorders and face the realities of living with a puzzling disorder that currently has no cure. The CDC estimates that 1 in every 59 people are affected by some form of autism spectrum disorder, making it the fastest growing developmental disability in the U.S.

The Autism Society of Alabama's mission is to improve services for individuals affected by autism spectrum disorders in the state through education and advocacy. Help ASA "Light It Up Blue" in your community and turn your lights blue beginning April 2<sup>nd</sup>, World Autism Day, throughout the entire month of April. This promotion is very easy for anyone to implement. Fill out the attached commitment form and mail with additional fees to the Autism Society of Alabama. In return, ASA will mail a Blue Light Bulb to replace an existing light bulb at your home, office, school, or any other location deemed appropriate. For more information please contact Lauren Reid at [lauren@autism-alabama.org](mailto:lauren@autism-alabama.org) or call 877-4AUTISM.
